| | | | | |
|-------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------------------------|-------------------------|
| | <ul style="list-style-type: none"> • Verification of issued security capital; and • Validation of the Issuer static data, e.g. company registration numbers, tax registration number, etc. <p>The fee arises as a result of the on-going maintenance and recording of the Issuer information and is charged bi-annually in advance per ISIN.</p> | | | |
| <p>REGISTER ADMIN BETWEEN 0 - 10000</p> | <p>The Register Administration Fee covers each individual electronic book entry movement (both sales and purchases) on the security register that occur in the dematerialised environment.</p> <p>Historically, the administration of an Issuer's security register involved the completion of CM42 transfer forms and the subsequent registration out of the name of the seller and into the name of the buyer in the company's securities register. Due to settlement delays and the on sale of securities bought, this process was often ineffective, inaccurate and costly for Issuers and Investors alike. The dematerialisation of securities in South Africa addressed several inefficiencies and risks, including the introduction of electronic security register which provides Issuers with accurate and up-to-date information about their security holders. This process brings many advantages of efficiency and transparency to the Issuers.</p> <p>The Register Administration Fee is calculated using the number of trades executed on a particular Issuer's securities, as this directly</p> | <p>Issuer</p> | <p>R 0.91 per trade</p> | <p>R 0.79 per trade</p> |

| | | | | |
|------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|------------------|------------------|
| | <p>affects the number of electronic book entries that must be made on the uncertificated register.</p> <p>In instances where the number of trades exceeds 10,000 a lower fee is applied.</p> | | | |
| REGISTER ADMIN BETWEEN 10001 and 40000 | See previous description. | Issuer | R 0.71 per trade | R0.62 per trade |
| REGISTER ADMIN EXCEEDING 40000 | See previous description. This fee still needs to be confirmed | Issuer | R 0.63 per trade | R 0.55 per trade |
| BENEFICIARY DOWNLOAD (ALSO APPLICABLE TO WARRANTS) | <p>This fee is charged for the provision of information to Issuers detailing specific information relating to the holders of their securities.
