3. OPERATIONAL TIMINGS

1. Interpretation and Definitions

This Strate Directive should be read in conjunction with Strate Directive SZ.1 - *Interpretation and Definitions*.

2. Considerations and Assumptions

- 2.1 The following are the basic considerations and assumptions on which the operational timings are based:
 - 2.1.1 The timings are with respect to the Strate System;
 - 2.1.2 For all incoming messages, it is 'Received Time' by the Strate System;
 - 2.1.3 For all outgoing messages, it is 'Sent Time' by the Strate System;
 - 2.1.4 For internal processing, it is 'Processing Time' by the Strate System.
- 2.2 An Issuer must open a Central Securities Account in the Uncertificated Securities Register through its appointed Participant. The Issuer's Central Securities Account is required for electronic issuing of MM Securities, recording of Entries and Settlement of transactions in MM Securities.
- 2.3 A Client must open a Central Securities Account in the Uncertificated Securities Register through its appointed Participant. The Client's Central Securities Account is required for recording Entries and Settlement of transactions in MM Securities.
- 2.4 The operational timings stipulated in this Strate Directive are expressed in Business Days.
- 2.5 The timings on ISIN requests, transaction reporting, confirmations, commitments and Settlements are driven by system controls. On any Business Day, a written request may be submitted to Strate Settlement Services to extend a trade reporting and/or commitment window at least 15 (fifteen) minutes before the close of the applicable window. Failure to do so will result in the transaction failing.
- 2.6 The start time of SAMOS is not controlled by the Strate System or Strate.

3. Operational Timings

The following operational timings provided in this sub-section are based on the assumptions and considerations provided in the previous sub-section.

3.1 Strate System

- 3.1.1 The Strate System BOD is at 03h00. Strate informs Participants and Business Partners when there is a change in the timing of the BOD process.
- 3.1.2 If BOD is delayed beyond 03h00, shifting or compression of the rest of the Settlement and system activities takes place as per Strate's business continuity plan. Strate informs the Participants and Business Partners via e-mail where there is a change in the timing of BOD or EOD and of any amendments to the operational windows.
- 3.1.3 A Participant must reconcile its Clients' Central Securities Account positions to the Strate System daily. For this purpose, the Strate System generates a statement of holdings message at 18h00 daily, which it sends to the Participant. In case of any discrepancy, the Participant may request an audit trail details via an email to Strate Settlement Services, by 18h00 on the following Business Day.
- 3.1.4 The Strate System EOD is at 19h00. Should a Participant require the parameter to be moved beyond 19h00, it must submit a request to Strate in writing before 16h30.

3.2 ISIN Issue

- 3.2.1 A request for a new ISIN, or the cancellation of an ISIN, by an Issuer and/or Issuer Agent is accepted between 07h00 and 18h00.
