

We manifest *change*

Company Profile 2026

Banking & Insurance
Consulting Specialists

[Click here to see how we manifest change](#)

change happens.

We've already rolled up our sleeves.

We live in a world of too much talking and too little doing. We've built our reputation on the opposite.

At Monocle, we specialise in getting into the depths of our client's systems and processes to deliver tangible results. We don't believe the hypothetical shifts the needle, we believe in possessing the smartest risk, compliance, finance and technology minds in the industry who proudly get their hands dirty for our financial services clients. We manifest change.

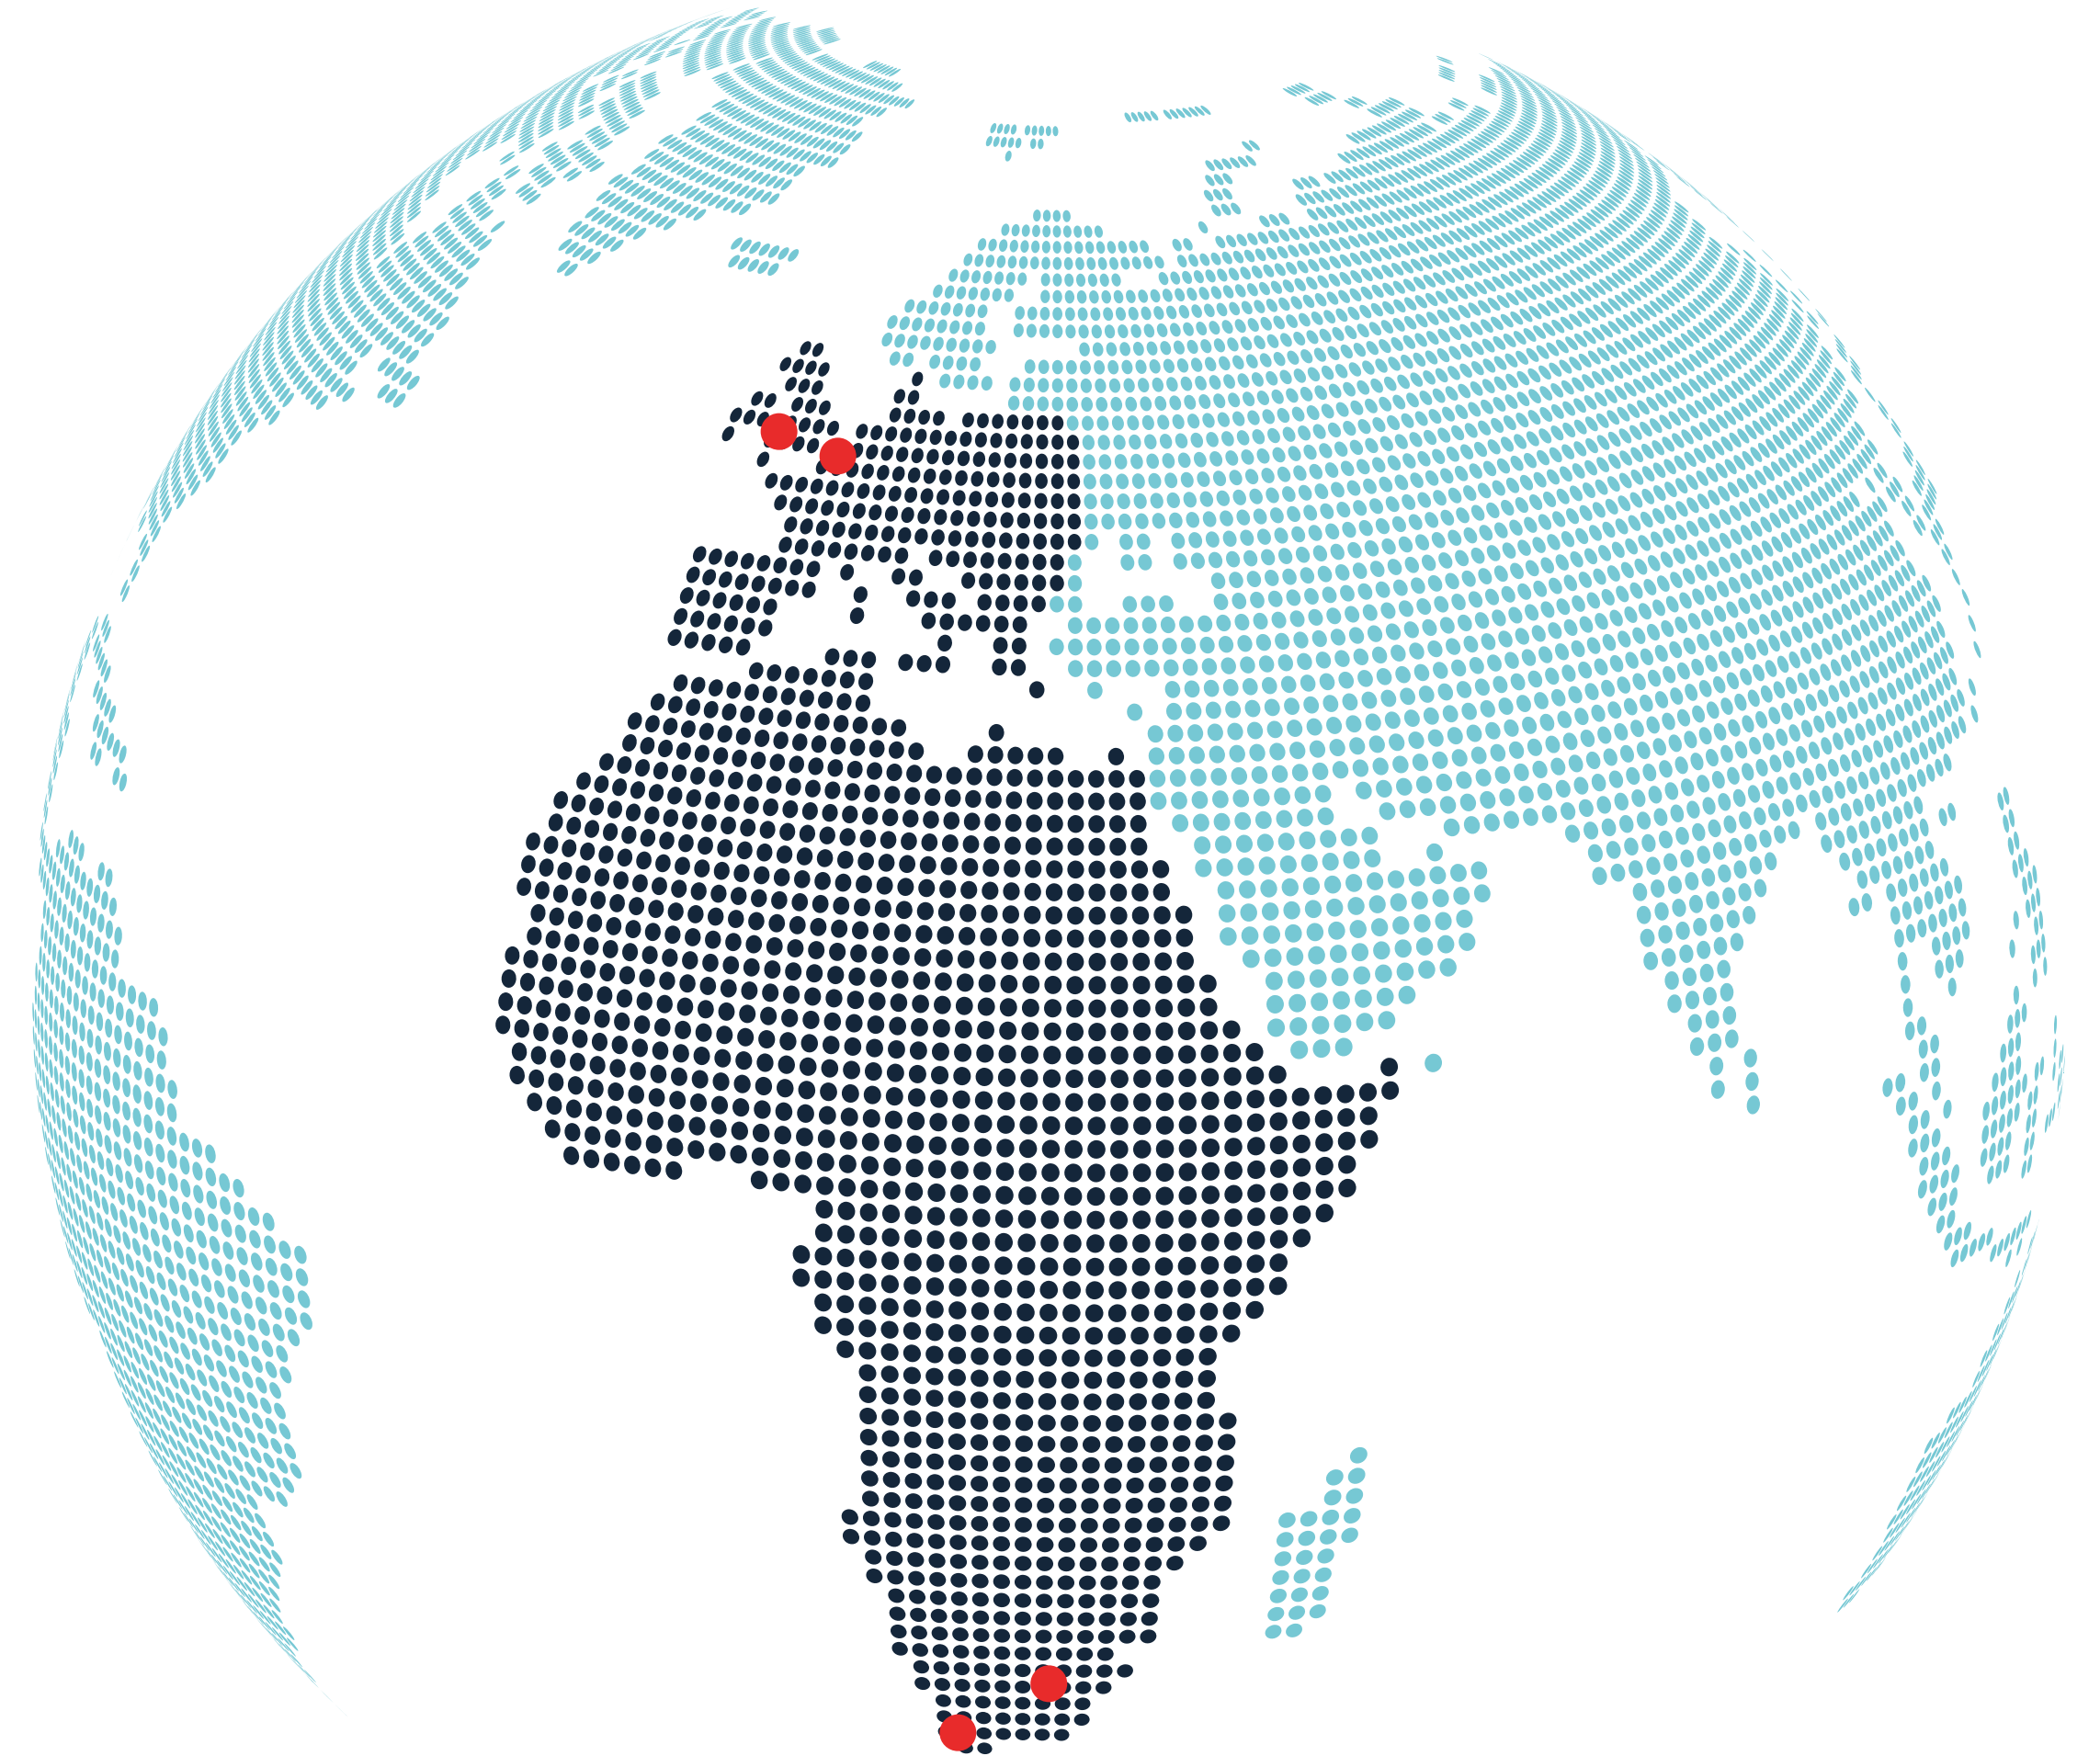

Monocle is an international management consulting firm, specialising in banking and insurance.

We are *bespoke*
execution partners.

For over two decades we have bridged the divide between business stakeholders' needs and the complex systems, processes and data that sit under the hood.

Our *purpose*

Empowering people to achieve meaningful change in financial services and across society.

London | Amsterdam | Johannesburg | Cape Town

Monocle has been recognised, for the fourth year in a row, as a 'Top Employer' by the international Top Employer institute for our exceptional work environment and people strategy.

The world needs more people who get things *done*.

And we've hired a workforce of them.

We know that to be the best, we need to have the best people. But we don't stop there.

We instil a strong set of values and ethics. We pair them with world-renowned trainers, provide them with expert mentorship and ensure an industry-beating work culture that keeps them motivated and hungry.

Wisdom is *knowledge* applied.

*We are experts across
the key components of
banking and insurance:*

+ Financial Transformation

Streamlining, modernising, and automating key existing financial systems and data and implementing solutions to meet the requirements of financial reporting standards and regulations.

+ Risk & Regulation

Reforming, enhancing, and automating key risk, treasury and capital management systems, processes, and data, and implementing new prudential regulatory frameworks.

+ Market Conduct & Compliance

Refining, restructuring, and automating compliance management systems, processes, and data, and instituting market conduct and compliance frameworks.

+ Markets & Trading Operations

Effecting change initiatives with a specific focus on the complex areas of global markets and front-to-back trading operations.

+ Data & Analytics

Implementing data management and governance frameworks, performing complex largescale data and system migrations, and facilitating the effective visualisation and presentation of data.

+ Digital Transformation & AI

Engineering and executing comprehensive automation, AI and data science solutions.

+ Technology

Fulfilling all requirements across software, data and architecture domains to deliver a wide range of transformative technology services.

+ SAP Consulting

We bridge the gap between technology and business, helping you unleash SAP's potential as a powerful platform for insight, efficiency, and growth.

We do what we've always done, *deliver*.

The power of *technology* coupled with industry expertise.

Preparing for the future of financial services is going to take a lot more than a bunch of tech jargon and shiny tools. It is going to take bringing together deep industry knowledge, a clear business strategy, and a wide range of transformative technology services. This is where Monocle Tech thrives.
