

Reg-X Innovations

Specialist provider of regulatory reporting technology, assurance and managed services for global financial institutions.

Reg-X Agentic AI

AI-driven orchestration across regulatory reporting, assurance and remediation workflows.

REGULATIONS ARE DETERMINISTIC

- ✓ Rule-based
- ✓ Predictable
- ✓ Repeatable
- ✓ Same input → same output

AI IS PROBABILISTIC

- ✓ Uncertainty/Ambiguity
- ✓ Incomplete information
- ✓ Dynamic environments
- ✓ Multiple possible solutions

REG-X AI is context-aware, compliance driven, and designed to minimise hallucination risk within governed regulatory boundaries.
